

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

FOREIGN.

[Reports received from United States consuls through the Department of State and from other sources.]

Cholera, yellow fever, plague, and smallpox as reported to the Supervising Surgeon-General United States Marine-Hospital Service, January 1 to December 23, 1898.

Current quarantine measures.

[Translated in this Bureau from the "Veröffentlichungen des Kaiserlichen Gesundheitsamtes," Berlin, November 16 and 23, 1898.

RUSSIA.—Precautionary measures against the spread of the plague epidemic, which has broken out in the hill village of Anzob, situated 250 versts southeast of Samarcand, have been put in force along the trans-caspian railway line in Aschabad. The sanitary commission has resumed active duties, and train officials and physicians are to be appointed. Medical inspection stations have been established at the two stations on the Samarcand-Amu Darja Stretch and at Bucharra, and accommodations are to be provided for the sick at the stations of Katti-Kurgan, Kermine, Karakul, and Farab. Rags, fresh bones, and animal refuse, used bedclothing and personal clothing, are prohibited shipment as merchandise. Goods arriving at Samarcand by the Audischan railway are received only when they can be certified as previously disinfected. The railway service is charged with providing the means of disinfection and antitoxic serum, and is required to increase the personnel of physicians and attendants to accompany the trains. His Highness Prince Alexander of Oldenburg is ordered to the scene of the epidemic and placed in charge of the measures for the suppression of the disease.

TURKEY.—The international board of health at Constantinople has addressed a communication to the sanitary authorities at Varna, Bulgaria, instructing them in the measures to be employed in regard to persons arriving from plague-infected localities. Oversight is to be had of all persons returning to their homes in Bulgaria and those who are suffering from inflammation of the lungs.

PORTUGAL.—By ministerial order of November 4, measures against arrivals from Vienna are suspended from November 8.

BRAZIL.

Sanitary Report from Rio.

RIO DE JANEIRO, November 17, 1898.

SIR: I have the honor to transmit to you the official report for the weeks ended October 28 and November 4.

There were, during the first week, 290 deaths from all causes, an increase of 42, as compared with the foregoing week; 8 deaths from
